

Power Outage Checklist Australia

— Essential Home Safety Protocol —

www.firerescue.com.au

Before an Outage

- Stock up on water and non-perishable food
- Prepare an emergency kit
- Charge phones & power banks
- Get a torch & spare batteries
- Have a battery or wind-up radio
- Make an emergency contact list

During an Outage

- Stay updated via a battery radio
- Use torches, not candles
- Unplug sensitive electronics
- Avoid opening the fridge/freezer
- Keep fridge closed to stay cool
- Check on neighbours, especially the vulnerable

After Power is Restored

- Turn on appliances gradually
- Reset clocks and alarms
- Restock your emergency supplies
- Dispose of any spoiled food
- Review & update your outage plan

Emergency Contacts

- Dial 000 for Emergencies**
- Local Electricity Provider
- State Emergency Service (SES)
- Nearby Hospital
- Trusted Neighbours

Important Tips

Have backup power options

Keep important documents safe

Stay informed about weather alerts

Stay informed about weather alerts
