

Tsunami Evacuation Route Planning Checklist

www.firerescue.com.au

Know Your Risk Zone

- Check tsunami hazard maps for your area.
- Identify safe evacuation routes to higher ground.

Prepare Your Go Bag

-  Emergency supplies (water, food, first aid)
- Important documents & cash
-  Torch & battery-powered radio
-  Sturdy shoes and extra clothing

During an Alert

- Move immediately to high ground.
- Avoid rivers, beaches & low-lying areas.
- Take your go bag & essentials.
- Help others if safe to do so.

Plan Your Evacuation

- Map out primary and alternate routes.
- Plan on-foot options if roads are blocked.
- Choose safe meeting points inland.
- Practice your route with family.

Stay Informed

- Follow local warnings & alerts.
- Know the natural tsunami signs.
- Keep a list of emergency contacts.
- Dial **000** for emergencies.

After the Tsunami

- Wait for the "all clear" signal.
- Be cautious of debris & flooding.
- Avoid damaged buildings.
- Listen to updates from authorities.

IN AN EMERGENCY, DIAL 000

- Have multiple evacuation routes.
- Review your plan regularly.
